lowa's Immunization Registry Information System (IRIS) is a statewide database of immunizations administered in Iowa from either public or private providers. IRIS helps parents, health care providers, schools and other authorized users to know an individual's immunization status.

lowa state law [lowa Code § 22.7(2) and 641IAC Chapter 7] provides immunization information is confidential, which can only be shared with enrolled users, including an individual's health care provider, school, child care facility, local health department, or the individuals themselves.

Once an individual attains 18 years of age, that person's parents can no longer request a record, but the legal adult may request the information directly. If you would like a copy of your immunization record, please complete the following <u>required</u> information and fax to your lowa health care provider or to the IRIS Help Desk fax: 800-831-6292.
